

GoodToGo

BRAND & MARKETING KIT

Get your life in order.
For the people you love.

Brand idea

The road toward the horizon represents preparation, direction, and moving forward. It keeps GoodToGo broader than a to-do app while remaining positive and non-morbid.

Visual system

Color palette

	Deep Navy	#102D4F
	Clear Blue	#4C8FD6
	Pale Blue	#DCEAF7
	Slate	#566574
	Ink	#1D2935
	Off White	#F8FAFC

Typography

Headings: Manrope Semibold/Bold. Body and UI: Inter Regular/Medium. Use system-ui as a fallback. Do not bundle font files with the project; reference the official web font source or package dependency.

Design character

Use generous whitespace, rounded but not bubbly corners, clear hierarchy, calm blue surfaces, and simple two-tone icons. The product should feel trustworthy and human rather than legalistic, clinical, or productivity-app generic.

Messaging & usage

Primary tagline

Get your life in order. For the people you love.

One-line pitch

Put your life in order now, so the people you love have clarity when they need it most.

Short description

GoodToGo helps you organize the information, documents, wishes, contacts, and digital details your family may someday need.

Voice

Calm, capable, reassuring, plainspoken, and forward-looking. Avoid fear-based or morbid language.

Logo usage

Use the road/horizon mark as the primary identity. Use the clipboard inside the product as the Life Plan or Readiness icon. Maintain clear space around the mark and never stretch, rotate, shadow, or recolor it outside the approved palette.

Asset map

SVG masters are for web and scalable use. PNG exports are for documents and platforms that do not accept SVG. Favicon files cover browser, mobile, and PWA uses. CSS tokens provide a starter implementation for the app.
